CHANDON DE BRIAILLES

Corton-Bressandes

2020

Covering a total of 1.4535 hectares, four parcels are spread from north to south in the 'Les Bressandes' climat. Right in the heart of the Corton hillside, it has a fine balance of iron clay and limestone.

Facing the Saône plain, it benefits from the rising sun without the effect of a valley. The soil is worked by our four precious Comtoise horses. The Biodynamic treatments are carried out entirely by caterpillar. Vinification takes place in oak truncated-cone vats, with no pumps and no sulphites in the whole harvest, except in years of hail or frost.

Around 85% of the wine is matured in 228-litre barrels in our 13th-century Cistercian cellars, and the rest in new barrels, for 15 to 18 months.

VINTAGE 2020

It's another sunny vintage, but without excess. The harvest took place from August 17 to 30.

The harvest was very healthy, with a slightly below-average yield. The grapes were beautiful and well-balanced, with high ripeness and good acidity. The bar was set high and the finished wines had a strength rarely equaled, making this a great vintage for laying down.
