Pernand-Vergelesses Île des Vergelesses Blanc

2019

1.12 hectares planted in 1985, 1992 and 2019 make up this cuvée of Pernand Île des Vergelesses Blanc. This magnificent 'Île des Vergelesses' climat, which means 'the best of a whole', is recognised by the INAO (Institut National des Appellations d'Origine) for both red and white wines.

Located on a mid-slope facing east, this climate is built on balanced clay-limestone soils and a subsoil composed of the same limestone found on the Corton hill.

This definitely makes it a 'super' premier cru. Vinification is carried out without the use of pumps or sulphites. The wine is matured in 10 hectolitre tuns and demi-muids for several weeks for 20 to 30 months on the lees.

VINTAGE 2019

Once again, a sunny vintage. The harvest took place from September 9 to 20. We experienced record-breaking heat that year, particularly at the end of June and beginning of July, with temperatures peaking at 40° Celsius.

One might wonder how the vines could survive in such conditions, but to our astonishment, they held up very well. However, the grapes became concentrated and yielded little juice. At the end of vinification, we realized that we had half the harvest in the cellar. The wines are very full-bodied, fine, with fairly low acidity, which makes them very accessible in their youth.
