CHANDON DE BRIAILLES

Aux Fourneaux

2020

This Savigny cuvée is made up of a 1.10 hectare parcel in the 'Aux Fourneaux' climat in the village appellation, at the bottom of the hillside, and a 1.31 hectare parcel in the same 'Aux Fourneaux' climat, but this time classified as a 1er cru, located above the previous parcel and planted half in 1956 and half in 2015.

'The name 'Aux Fourneaux' is said to derive from a well-established tradition of coal-fired furnaces, some remains of which have been found along the road from Pernand-Vergelesses to Beaune. Cf MH Landrieux-Lussigny - Le Vignoble Bourguignon. The vines have been biodynamic since 2005 and the soil is worked entirely with our Comtoise horses.

Vinification is carried out without the use of pumps or sulphites, and the grapes are harvested whole, except in years of frost or hail. The wine is matured in Burgundy barrels for several wines (90% of the cuvée) and 10% in new barrels in our old Cistercian cellars.

VINTAGE 2020

It's another sunny vintage, but without excess. The harvest took place from August 17 to 30.

The harvest was very healthy, with a slightly below-average yield. The grapes were beautiful and well-balanced, with high ripeness and good acidity. The bar was set high and the finished wines had a strength rarely equaled, making this a great vintage for laying down.
