CHANDON DE BRIAILLES

Savigny-lès-Beaune "Les Saucours"

2020

A 0.60 hectare parcel planted in 2014 gives birth to this cuvée from the 'Les Saucours' climat. Located on the outskirts of the village in the southern part of Savigny, on a mid-slope on white marl and in a fairly cool environment, this is an ideal situation for producing a lovely white wine with minerality, freshness and floral notes.

The vineyard has been run biodynamically since it was acquired in 2008. The soils are cultivated using only our horses, and treatments are carried out using a caterpillar tracker, which means that no tractors enter the land.

After a vertical pressing, the wine is vinified in 10 hectolitre tuns and demi-muids if necessary. The wine is then matured in the same containers for 20 to 30 months.

VINTAGE 2020

It's another sunny vintage, but without excess. The harvest took place from August 17 to 30.

The harvest was very healthy, with a slightly below-average yield. The grapes were beautiful and well-balanced, with high ripeness and good acidity. The bar was set high and the finished wines had a strength rarely equaled, making this a great vintage for laying down.
